

8 May 2024

To: Whom it may concern

Dear Sir or Madam:

Re: Testimonial for Aiden Brevia

I'm delighted to offer this testimonial for Aiden Brevia, a dedicated participant in robotics and programming courses with the School of Robotics (SOR) since January 2023. Throughout his tenure at SOR, Aiden has consistently showcased a strong passion for programming and logical thinking. His contributions during class sessions and competitions have been marked by innovative ideas and solutions, highlighting his unwavering dedication.

Aiden actively engaged in the World Robot Olympiad (WRO) 2023 and the First Lego League (FLL) Challenge 2023/24, where he played a pivotal role in programming for both events. Seeking to expand his coding skills, Aiden took on the challenge of our Unity course, designed to elevate proficiency in game design and development. Proficiency in Unity necessitates a grasp of C# programming for implementing game mechanics and logic, which can be a challenge for students without a strong programming foundation.

His journey through the Unity course reflects a commendable level of dedication and continuous progress. In Term 1 of 2024, Aiden delved into the foundational aspects of 2D game creation, mastering navigation within the Unity Editor, and gaining proficiency in creating game elements, integrating animations and sound effects, and grasping basic programming concepts in C#. As he advances into Term 2, Aiden is poised to tackle more advanced concepts in 3D game development, encompassing environment creation, difficulty level implementation, game mechanics, and design principles.

Despite facing challenges, particularly in grasping C# programming, Aiden's unwavering commitment and perseverance shine through. His ongoing growth, passion, and dedication towards game design lay a solid groundwork for his future achievements in programming. For further inquiries, please feel free to contact me at waichung@sor.com.sg.

Yours sincerely,

WaiChung
